

TRANSITION OF CARE

CONTINUITY OF CARE

See how they work

What is Transition of Care?

With Transition of Care, you may be able to continue to receive services for specified medical conditions with health care professionals who are not in the Cigna network at in-network coverage levels. This care is for a defined period of time until the safe transfer of care to an in-network doctor or facility can be arranged. You must apply for Transition of Care at enrollment, or when there is a change in your Cigna medical plan. You must apply no later than 30 days after the effective date of your coverage.

What is Continuity of Care?

With Continuity of Care, you can receive services at in-network coverage levels for specified medical conditions when your health care professional leaves the Cigna network. There must be solid clinical reasons preventing immediate transfer of care to another health care professional. This care is for a defined period of time. You must apply for Continuity of Care within 30 days of your health care professional's termination date. This is the date that he or she is leaving the Cigna network.

How they both work

- ▶ You must already be under treatment for the condition identified on the Transition of Care/Continuity of Care request form.

- ▶ If the request is approved for medical conditions:
 - You will receive the in-network level of coverage for treatment of the specific condition by the health care professional for a defined period of time, as determined by Cigna.
 - If your plan includes out-of-network coverage and you choose to continue care out-of-network beyond the time frame approved by Cigna, you must follow your plan's out-of-network provisions. This includes any precertification requirements.
 - Transition of Care/Continuity of Care applies only to the treatment of the medical condition specified and the health care professional identified on the request form. (All other conditions must be cared for by an in-network health care professional for you to receive in-network coverage.)
- ▶ The availability of Transition of Care/Continuity of Care:
 - Does not guarantee that a treatment is medically necessary.
 - Does not constitute precertification of medical services to be provided.
- ▶ Depending on the actual request, a medical necessity determination and formal precertification may still be required for a service to be covered.

What time frame is allowed for transitioning to a new in-network health care professional?

If Cigna determines that transitioning to an in-network health care professional is not recommended or safe for the conditions that qualify, services by the approved out-of-network health care professional will be authorized for a specified period of time (usually 90 days). Or, services will be approved until care has been completed or transitioned to an in-network health care professional, whichever comes first.

If I am approved for Transition of Care/Continuity of Care for one illness, can I receive in-network coverage for a non-related condition?

In-network coverage levels provided as part of Transition of Care/Continuity of Care are for the specific illness or condition only and cannot be applied to another illness or condition. You need to complete a Transition of Care/Continuity of Care request form for each unrelated illness or condition. You need to complete this form no later than 30 days after your plan becomes effective or your health care professional leaves the Cigna network.

Can I apply for Transition of Care/Continuity of Care if I am not currently in treatment or seeing a health care professional?

You must already be in treatment for the condition that is noted on the Transition of Care/Continuity of Care request form.

How do I apply for Transition of Care/Continuity of Care coverage?

Requests must be submitted in writing, using the Transition of Care/Continuity of Care request form. This form must be submitted at the time of enrollment, change in Cigna medical plan, or when your health care professional leaves the Cigna network. It cannot be submitted more than 30 days after the effective date of your plan or your health care professional’s termination.
